CAUTION: MAIL FROM OUTSIDE THE FIRM

Laura and Luke,
Defendants make the following offer

Defendants will provide to Google 1) Private Keys for ALL BTC addresses that are in any way connected to C2 of the alleged software that Google calls Glupteba, Defendants believe these private keys will allow Google to completely shut down the software for good (please note Defendants do not have these keys but Valtron agreed to provide them to the Defendants for the purpose of settlement); 2) Defendants will agree not to engage in similar conduct at any time in the future without admitting that they did anything wrong or illegal in the past.

Google will provide to Defendants 1) Dismiss the case against all the Doe Defendants; 2) Reimburse them for their attorneys' fees, which at this point equals \$110k; 3) Non-reporting provision to law enforcement & Google will stop referring to Defendants as criminals or cyber criminals in public; 4) \$1 million paid to each Defendant, for a total of \$2 million.

In terms of permanent injunction, I didn't discuss it with them but believe there is a good chance they will agree to it.

Sincerely,

Igor Litvak, Esq.
